AOP French Butter "Slim" Tart Shells

At La Rose Noire, we stay innovative and think forward to offer this edgy and avant-garde line of "Slim" Tart Shells made with AOP French butter.

AOP Beurre Charentes-Poitou

Since 1905, this butter has been made in the traditional style from the cream of pasteurized milk from farms in the Poitou-Charentes, France, using natural culture and slow churning. The butter's quality and integrity benefits from the Protected Designation of Origin (PDO) label: AOP Beurre Charentes-Poitou. Butter Charentes-Poitou is distinguished from other butters by its strong smell of thick cream but also a greater richness in lactose, which give it fruity notes. The butter is 100% natural, no dyes, antioxidants or deacidification substances.
